SKILS

Technical Tools	SQL, Python, PowerBI, BigQuery, Google Storage, Looker Studio
Soft Skills	Leadership, Analytical Skills, Strong Communication, Presentation Skills

EDUCATION

Education Level	Institution/University	Duration	Grade
Bachelor of Technology	N.K. College of Engineering and Technology, Solapur (DBATU)	2021 - 2024	CGPA: 7.91
Diploma	Solapur Education Society Poly. Solapur (MSBTE)	2013-2016	Percentage: 69.64
SSC	Shri Siddheshwar English Medium High School, Solapur (Pune)	2012-2013	Percentage: 68.55

EXAM/CERTIFICATION

Exam/Certification	Grades
ELITMUS	99.25%
GCP – Professional Data Engineer	Exam Appeared
GCP – Associate Cloud Engineer	Exam Appearing

COLLEGE PROJECTS

ETL Pipeline using Azure services
- Developed an ETL pipeline leveraging Azure Data Factory for orchestrating data workflows.
- Utilized Azure Data Lake for scalable storage and management of large datasets.
- Employed Azure Synapse Analytics (Data Warehouse) for efficient data warehousing and analysis.
- Integrated Azure Databricks for advanced data processing and machine learning tasks.
- Further Visualized the transformed data using Python libraries

ETL Pipeline using GCP services
- Designed and implemented a robust ETL (Extract, Transform, Load) pipeline utilizing various Google Cloud Platform services to streamline data processing.
- Leveraged Python (pandas) for data manipulation and analysis.
- Managed data using Google Storage and performed advanced analytics with Google BigQuery.
- Utilized Looker Studio for data visualization within the GCP environment.

YouTube Data Analysis (PowerBi)
- This project showcases a combination of Python's analytical capabilities, Jupyter Notebooks.
- Gathered informative insights of data using pandas libraries.
- Built an interactive dashboard using PowerBi for creating impactful data visualizations to derive insights from Kaggle data.
